The DEFEA Greek exhibition

On last May, 6th-8th, the DEFEA 2025 exhibition was held at the Metropolitan Expo, in Athens, for its third edition. Our correspondents there reported what they saw, mostly focusing the Italian presence. In particular, they highlight the great interest emerged for the Italian Navy, second-hand FREMM frigates, as well as for the FREMM EVO: such an interest can be seen within the Greek plan for a naval strengthening. Moreover, the Army too is carrying on several new programmes, and under this aspect, also the MoU signed by IDV and Melten for the Greek trucks can be included.

Anti-aircraft and anti-hypersonic defence

The main missile programmes for the anti-aircraft and anti-hypersonic defence in Europe and in the West – Technical solutions, schedules, and capabilities.

Loitering munition in Europe

An overview of the main loitering munition-related programmes and companies in Europe. European loitering munition capabilities, performances, and future developments.

Reportage: The AM (Aeronautica Militare: Italian Air Force) Task Force in Kuwait

Our correspondent paid a visit to the IT NCC Air/TFA-K (Italian National Contingent Command Air/Task Force Air-Kuwait), in particular the AM contingent deployed in Kuwait since 2014, within the Operation INHERENT RESOLVE, the anti-Daesh international coalition.
