Ballistic missiles - The rationale behind the choice

Comparison and evolution of ballistic missile, in their use and development, between the East (ex and post-USSR) and the West. An overview including the actual doctrines, organization, use and countering the ballistic missiles, in the light of the recent, increasingly important and dangerous conflicts.

The cognitive electronic warfare in aeronautics

The evolution of the modern operational scenarios features a constant electromagnetic spectrum changing process, so the EW (Electronic Warfare) systems result as a major factor. In this area, among the most interesting news emerges the so-called Cognitive EW, featuring a self-learning capability.

Report from the Polish MSPO exhibition

Report from our correspondent attending the Polish MSPO exhibition held in Kielce, on last September, 8th – 11th. Various news came from the Polish (and more broadly East European) very lively and active market. Italy has several interests in Poland, mainly in the helicopters and land weapons field.

Air-to-Air combat in the Indo-Pacific region

A study on the recent clashes between India and Pakistan and, more broadly, between the air-to-air capabilities of the most important air forces in the Indo-Pacific area.
